

Job Description

About Azentio

Azentio Software incorporated in 2020 at Singapore, has been carved out of 3i Infotech, Candela Labs, Beyontec Technologies and Path Solutions. Azentio Software provides mission critical, vertical-specific software products for customers in banking, financial services and insurance verticals and includes key products such as KASTLE™ (Universal Lending), AMLOCK™ (Anti-Money Laundering & Compliance software suite), PREMIA™ Astra (Core Insurance software), ORION™ (Enterprise Resource Planning software) and MFUND Plus™ (Asset Management platform). Azentio has over 800 customers in more than 60 countries, with a team of over 2,300 employees across offices in 12 countries (and growing) globally and is wholly owned by Funds advised by Apax Partners.

Azentio offers a comprehensive range of products – serving core operations to modern digital needs – for the financial services industry. Our deep domain knowledge and solutions in financial services extend across insurance, retail and corporate lending, Islamic Banking, anti-money laundering and asset management. In addition, Azentio proudly serves mid-market enterprises across the Middle East, Africa, Asia Pacific, and India with a comprehensive ERP solution.

At Azentio, we believe that growth is a continuous journey. We believe that each step of this journey must be taken by committing to excellence - excellence in our products, our services, our ideas, and our people.

Job Title: SDET - Intern

Location: Bangalore

Role Summary:

We are seeking a passionate and detail-oriented **Software Development Engineer in Test (SDET) Intern** to join our team. This internship provides a unique opportunity to work alongside our Product Engineering and R&D teams, gaining hands-on experience in software testing, test automation, and quality assurance. The ideal candidate will have a strong interest in coding, testing, and automation, with exposure to programming languages like Python and JavaScript.

What will you do?

- Collaborate with the Product Engineering and R&D teams to design, develop, and execute automated test scripts.
- Develop and maintain test cases for functional, integration, and regression testing.
- Build robust and scalable automation frameworks using **Python**, **JavaScript**, or other relevant technologies
- Work on testing APIs, web applications, and microservices.
- Identify, log, and track software defects, ensuring prompt resolution with the development team.
- Perform root cause analysis for identified bugs and contribute to improved code quality.
- Leverage testing tools and platforms to enhance automation efficiency and coverage

What skills required?

- Education: Pursuing or recently completed a bachelor's degree in computer science, Information Technology, or a related field
- Basic understanding of programming in Python, JavaScript, or similar languages.
- Familiarity with test automation tools.
- Knowledge of RESTful APIs and API testing tools.
- Exposure to version control systems .
- Problem-solving skills and an ability to work collaboratively in a fast-paced environment.

What We Offer

- Hands-on experience with real-world software testing projects.
- Opportunity to work closely with experienced Product Engineering and R&D teams.
- Mentorship from industry experts in automation and quality assurance.
- Exposure to cutting-edge tools, technologies, and best practices in software testing.

What we Aim for?

Azentio aims to be the leading provider of Banking, Financial Services & Insurance (BFSI) & Enterprise Resource Planning (ERP) software products in Asia Pacific, Middle East & Africa & United States. We will achieve this by:

- Providing world class software products, built on the latest technologies.
- Providing best in class customer service, built on a deep understanding of our domains and local nuances.
- Being an employer of choice, attracting high quality talent.
- Achieving top quartile growth and margins.

Azentio Core Values:

We work as one, **Collaborate** without boundaries, and win together.

We work with **Uncompromising Integrity** and **Accountability**.

Customer is at the core of all that we do.

We are **Diverse and Inclusive**. We treat our people, our customers and our wider community with **Respect and Care**.

We **Innovate**, we **Excel** and we **Grow Together**.

We **Give Back** to our communities through our business and our people.

We take **Pride** in all that we do and together we **Enjoy** the journey
