[AF PROGRAM 2024](#)

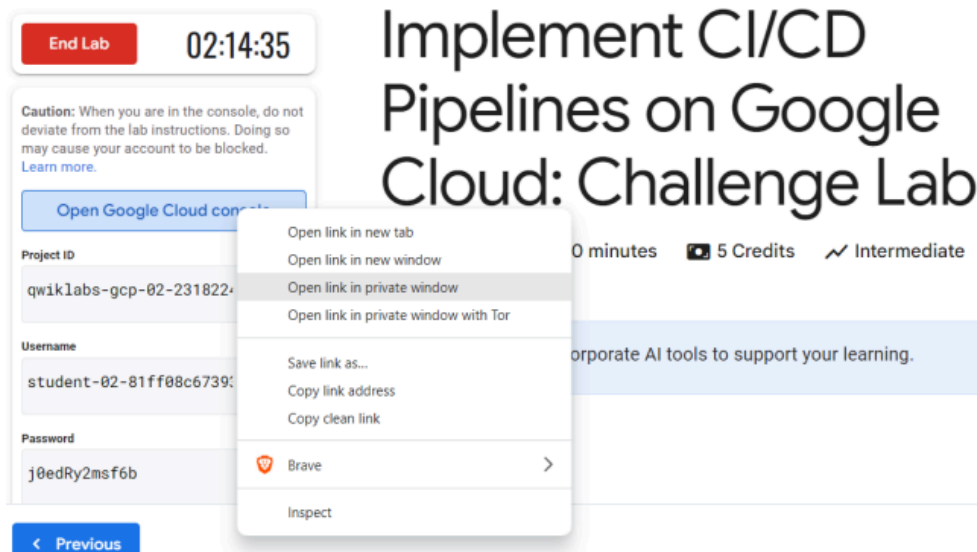

Please Follow the Below Steps very Carefully
and then start doing Labs

No Need To watch Video while
Completing Skill Badges (Just
Mark As Completed)

To complete this Skill Badges Just do it line By line

- ☐ Step :1 Open Labs and Solution Side by side also you Can Open Git-Hub Repo attached in YouTube description Link
- ☐ Step :2 Start the lab
- ☐ Step :3 Now right click on google console and open the link in (private / Incognito Tab)

- ☐ Step :4 Perform The Lab By seeing The video and Following Git-Hub Repo
- ☐ Step :5 when you completed all the steps check Checkpoints and click On check my progress if the checkpoints shows 100 end the lab Skill Badges to Be completed For Ultimate milestone

1. The Basics of Google Cloud Compute (4 Labs- 4 Credits):
https://www.cloudskillsboost.google/course_templates/754
2. Get Started with Cloud Storage (4 Labs- 4 Credits):
https://www.cloudskillsboost.google/course_templates/725
3. Get Started with Cloud Storage (3 Labs- 2 Credits):
https://www.cloudskillsboost.google/course_templates/728
4. Get Started with API Gateway (4 Labs- 3 Credits):
https://www.cloudskillsboost.google/course_templates/662
5. Get Started with Looker (4 Labs- 0 Credits):
https://www.cloudskillsboost.google/course_templates/647
6. Get Started with Dataplex (4 Labs- 4 Credits):
https://www.cloudskillsboost.google/course_templates/726
7. Get Started with Eventarc (4 Labs- 3 Credits):
https://www.cloudskillsboost.google/course_templates/727
8. Get Started with Google Workspace Tools (1 Labs- 0 Credits):
https://www.cloudskillsboost.google/course_templates/676
9. Cloud Run Functions: 3 Ways (4 Labs- 4 Credits):
https://www.cloudskillsboost.google/course_templates/696
10. App Engine: 3 Ways (4 Labs- 4 Credits):
https://www.cloudskillsboost.google/course_templates/671
11. Cloud Speech API: 3 Ways (4 Labs- 4 Credits):
https://www.cloudskillsboost.google/course_templates/700
12. Monitoring in Google Cloud (1 Labs- 4 Credits):
https://www.cloudskillsboost.google/course_templates/747
13. Networking Fundamentals on Google Cloud (4 Labs- 4 Credits):
https://www.cloudskillsboost.google/course_templates/748

14. Analyze Images with the Cloud Vision API (4 Labs- 12 Credits):

https://www.cloudskillsboost.google/course_templates/633

15. Prompt Design in Vertex AI (3 Labs- 0 Credits):

https://www.cloudskillsboost.google/course_templates/976

16. Develop your Google Cloud Network (6 Labs- 18 Credits):

https://www.cloudskillsboost.google/course_templates/625

17. Prepare Data for ML APIs on Google Cloud (9 Labs- 13 Credits):

https://www.cloudskillsboost.google/course_templates/631

18. Derive Insights from BigQuery Data (6 Labs- 6 Credits):

https://www.cloudskillsboost.google/course_templates/623

19. Build a Secure Google Cloud Network (6 Labs- 30 Credits):

https://www.cloudskillsboost.google/course_templates/654

20. Implement Load Balancing on Compute Engine (4 Labs- 5 Credits):

https://www.cloudskillsboost.google/course_templates/648

21. Set Up an App Dev Environment on Google Cloud (6 Labs- 8 Credits):

https://www.cloudskillsboost.google/course_templates/637

22. Build Infrastructure with Terraform on Google Cloud (1 Labs- 21 Credits):

https://www.cloudskillsboost.google/course_templates/636

23. Create ML Models with BigQuery ML (5 Labs- 11 Credits):

https://www.cloudskillsboost.google/course_templates/626

24. Manage Data Models in Looker (6 Labs- 0 Credits):

https://www.cloudskillsboost.google/course_templates/651

25. Manage Kubernetes in Google Cloud (4 Labs- 20 Credits):

https://www.cloudskillsboost.google/course_templates/783
