

MODEL QUESTION PAPER : 2024-25

Course Code: **BRIPK509**

VIDYAVARDHAKA COLLEGE OF ENGINEERING

Autonomous Institute, Affiliated to Visvesvaraya Technological University, Belagavi

Fifth Semester B.E. Examinations

COURSE NAME: Research Methodology and Intellectual Property Rights

Duration: 2 hours

Max. Marks: 50

INSTRUCTION TO STUDENTS

- 1) Part- A: Answer 25 multiple choice questions each carry 01 marks, mandatory
- 2) Part- B: Answer one full question from each module

Q. No.	Part - A	Marks	BL	CO
Module I				
1	What is the primary focus of research methodology? a) Conducting experiments b) Collecting data c) Defining research problems d) Analyzing results	1	L2	CO1
2	Which term refers to the systematic process of planning and conducting research? a) Research problem b) Research process c) Research method d) Research approach	1	L2	CO1
3	In the context of research, what is the role of defining the research problem? a) Collecting data b) Identifying research methods c) Guiding the entire research process d) Analyzing results	1	L2	CO1
4	What distinguishes research methods from research methodology? a) Research methods involve data collection; methodology involves problem definition. b) Research methods focus on objectives; methodology focuses on approaches. c) Research methods are broader; methodology is more specific. d) Research methods and methodology are synonymous.	1	L2	CO1
5	Which step in the research process involves the identification and formulation of specific research questions or issues to be investigated? a) Data analysis b) Problem selection c) Literature review d) Defining the research problem	1	L2	CO1
Module II				
6	1. What is the primary purpose of research design? a) Collecting data b) Designing experiments c) Drawing conclusions d) Establishing causation	1	L2	CO1
7	Which of the following is a key feature of a good research design? a) Simplicity	1	L2	CO1

MODEL QUESTION PAPER : 2024-25

Course Code: **BRIPK509**

	b) Complexity c) Replicability d) Ambiguity			
8	Which principle of experimental design involves conducting multiple trials of an experiment? a) Principle of Randomization b) Principle of Replication c) Principle of Local Control d) Principle of Validity	1	L2	C01
9	In research design, what does the Principle of Randomization aim to achieve? a) Minimize confounding variables b) Maximize sample size c) Increase external validity d) Ensure ethical conduct	1	L2	C01
10	Why is the Principle of Local Control important in experimental design? a) To control for extraneous variables within the experimental setting b) To ensure random assignment c) To increase generalizability d) To enhance statistical power	1	L2	C01
Module III				
11	Researcher must select/prepare a sample design which should be. a) Reliable b) Appropriate c) Both a and b d) None of the above	1	L2	C01
12	The first step in developing any sample design is to clearly define a) Sampling Unit b) Source List c) Type of Universe d) Parameters of interest	1	L2	C01
13	The last step the researcher will decide the type of sample design to use is a) Budgetary constraint b) Sampling Procedure c) Type of Universe d) Both a and c	1	L2	C01
14	"Sample design must be viable in the context of funds available for the research study" _i_s_ the _____ of a good sample design. a) Criteria b) Characteristic c) Both a and b d) Protocol	1	L2	C01
15	The probability sampling and non-probability sampling belong to which type of Sample design technique? a) Representation Basis b) Element Selection c) Pattern Basis d) Travelling Selection	1	L2	C01
Module IV				
16	Which one is the true example of primary data from the following options? a) Journal b) Book	1	L2	C01

MODEL QUESTION PAPER : 2024-25

Course Code: **BRIPK509**

	c) Census Report d) Newspaper			
17	What is it called when the data is sourced from the place of origin? a) Secondary b) Primary c) Secondary and primary d) All of the above	1	L2	C01
18	What is it called when the data source is gathered and compiled with others? a) Primary Data b) Quantitative data c) Secondary data d) None of the above	1	L2	C01
19	The method of collecting primary data is called a) Questionnaire and schedule method b) Observation and Interview method c) None of the above d) Both A and B	1	L2	C01
20	Data that are collected or sourced from the internet is called – a) Documentary sources of data b) Internal secondary sources of data c) External secondary sources of data d) All of the above	1	L2	C01
Module V				
21	Intellectual property rights are established to protect what? a) Land b) Buildings c) Creations of the mind - inventions, literary and artistic works, symbols, names, and images used in commerce d) Vehicles	1	L2	C01
22	Which international organization promotes Intellectual Property rights? a. The United Nations b. The World Bank c. The World Intellectual Property Organization (WIPO) d. International Monetary Fund (IMF)	1	L2	C01
23	An example of a design that can be patented is: a) A sequence of steps for baking a cake b) The shape of a new model of car c) Title of a book d) An advertising slogan	1	L2	C01
24	Copyright law gives the owner: a) The right to use the invention b) The right to sell the invention c) Exclusive rights to reproduce the work, prepare derivative works, distribute copies, and perform and display the work publicly d) Rights for all the above	1	L2	C01
25	Which act governs patents in India? a) Patents Act, 1970 b) Trademarks Act, 1940 c) Copyright Act, 1957 d) Geographical Indications Act, 1999	1	L2	C01

MODEL QUESTION PAPER : 2024-25

Course Code: **BRIPK509**

PART - B				
Q. No.	Module-I	Marks	BL	CO
1. (a)	What is Research? Explain Objectives of Research.	5	L2	C01
(OR)				
2.(a)	Explain difference between research method and research methodology	5	L2	C01
Module-II				
3.(a)	Given a research scenario, apply the principles of randomization to design an experiment.	5	L3	C02
Module-III				
4.(a)	For a research study what is the meaning of sampling design and the procedure in selecting a sample design required for a research study.	5	L3	C02
(OR)				
5.(a)	Apply the various methods and procedures on ensuring effective measurement in a research study?	5	L3	C02
Module- IV				
5.(a)	Describe different methods of collecting primary data	5	L2	C01
Module- V				
6.(a)	Explain the different forms of Intellectual Property Rights.	5	L2	C01
