CONTINUOUS COMPREHENSIVE EVALUATION: TEST-1					
COURSE NAME	: Research Methodology and Intellectual Property Rights	ACADEMIC YEAR	: 2024-25		
COURSE CODE	: BRIPK609	DATE	: 04/04/2025		
SEM / BRANCH	: VI/EEE,CS,IS,CSE(AI&ML)	MAX. MARKS	: 30		
FACULTY	: Prof.Rakshith P, Prof.Chandini S B, Prof.Aishwarya M, Prof.Priya H P, Prof.Susan Shaju, Prof.Nidhishree G, Dr.Sonali Nandish Manoli	DURATION	: 1 Hour		
Q No.	Instructions to students: i). Answer all the questions from Part-A ii). Answer two full questions from Part-B	Marks Allotted		BL	CO/ PO
PART-A					
MODULE 1					
1	A Research is a _____ a)Lab experiment c)Procedure	b)Systematic and scientific inquiry d)Hypothesis	1	L2	CO1, PO1
2	The method that consists of collection of data through observation and experimentation, formulation and testing of hypothesis is called _____ method. a)Empirical c) Scientific information	b)Scientific d) Practical knowledge	1	L2	CO1, PO1
3	Preliminary data collection is a part of the _____ research. a)Qualitative c)Explanatory	b)Exploratory d)Descriptive research	1	L2	CO1, PO1
4	Which of the following is non-probability sampling technique? a)Simple random sampling c)Snowball sampling	b)Stratified random sampling d) Cluster sampling	1	L2	CO1, PO1
5	Which of the following is/are the type of research on objective point of view? a)Applied research c)Qualitative research	b)Explanatory research d)Quantitative research	1	L2	CO1, PO1
6	A systematic study directed toward greater knowledge or understanding of the fundamental aspects of phenomena is called a)Applied research c)Explanatory	b)Basic research d)Quantitative	1	L2	CO1, PO1

7	Which type of research includes survey and fact finding enquiries? a) Descriptive research b) Applied research c) Empirical research d) Conceptual research	1	L2	CO1, PO1
8	Which of these is not a type of research ? a) Descriptive b) Analytical c) Applied d) Prescriptive	1	L2	CO1, PO1
MODULE-2				
9	Which of the following is NOT a basic principle of experimental design? a) Principle of Randomization b) Principle of Reliability c) Principle of Replication d) Principle of Local Control	1	L2	CO1, PO1
10	What does a good research design aim to minimize? a) Sample size b) Extraneous variables c) Generalizability d) Descriptive statistics	1	L2	CO1, PO1
11	In research design, what does the Principle of Randomization aim to achieve? a) Minimize confounding variables b) Maximize sample size c) Increase external validity d) Ensure ethical conduct	1	L2	CO1, PO1
12	When a dependent variable is influenced by an extraneous variable, the relationship is called? a) Controlled b) Confounded c) Experimental d) Independent variable	1	L2	CO1, PO1
13	What are the three components of variability of data? a) Treatments, Extraneous factors, and Sampling error b) Treatments, Experimental error, and Data entry error c) Extraneous factors, Experimental error, and Instrumental error d) Treatments, Extraneous factors, and Experimental error	1	L2	CO1, PO1
14	Why is the Principle of Local Control important in experimental design? a) To control for extraneous variables within the experimental setting b) To ensure random assignment c) To increase generalizability d) To enhance statistical power Give answer	1	L2	CO1, PO1
15	What does a descriptive research design aim to achieve? a) Discovering new ideas without any structure b) Establishing a causal relationship c) Providing an accurate description of a situation d) Ignoring the association between variables	1	L2	CO1, PO1
16	Which principle ensures that an experiment is conducted multiple times for accuracy? a) Principle of Local Control b) Principle of Randomization c) Principle of Replication d) Principle of Experimentation	1	L2	CO1, PO1
PART-B				
MODULE-1				

Vidyavardhaka Sangha®, Mysore

1	Illustrate Research Process with a Neat Diagram.	7	L2	CO1, PO1
OR				
2	Explain the different types of research? Elaborate any two in detail.	7	L2	CO1, PO1
MODULE 2				
3	A city's transportation department wants to analyze the impact of introducing electric buses on urban traffic congestion and air pollution. As a researcher, how would you design a study to assess the effectiveness of this initiative? Identify and apply the key concepts of research design in your approach.	7	L3	CO2, PO1

COURSE OUTCOMES	
CO1	Describe the knowledge of research techniques for conducting research studies.
CO2	Apply the knowledge of research process to provide solutions for engineering problems
CO3	Investigate the problems using research-based methods, appropriate techniques, resources and engineering tools to provide valid conclusions.
