

Indian Knowledge Systems (IKS) – BIKSK609**6th Semester****Module 2 Question Bank**

Sl no	Question	Marks	CO	PO	BLO
1	Model the Paninian Algorithm for Grammatical Operations.	5	CO2	PO3	L3
2	Organize the rules employed in Katapayadi System to convert the numerals to alphabets.	5	CO2	PO3	L3
3	Utilize binary cycle of length 3 to define eight ganas of yamata-raja-bhana-salagam using laghu and guru.	5	CO2	PO3	L3
4	Identify the ancient Indian measures for length, time and distance.	5	CO2	PO3	L3
5	Organize decimal system of Numbers mentioned in Siddhanta Siromani of Bhaskaracarya.	5	CO2	PO3	L3
6	Sanskrit Grammar of Panini rests on a fundamental set of sutras known as _____. a) Sankhayana Sutra b) Pushpa Sutra c) Nidana Sutra d) Maheshvara Sutra	1	CO1	PO1	L2
7	Which of the following is not a common aspect seen in computer language and Panini's rule? a) Syntax b) Mnemonics c) Informal language d) Algorithmic approach	1	CO1	PO1	L2
8	Each sutra of Maheshvara Sutra ends with _____. a) Consonant b) Vowel c) Verb d) Adjective	1	CO1	PO1	L2
9	The 'sup' has set of _____ suffixes of the seven cases of the nouns. a) 18 b) 21 c) 14 d) 27	1	CO1	PO1	L2
10	The 'tin' is a mnemonic that represents a set 18 suffixes to generate the _____ forms. a) Verb b) Nouns c) Adjective d) Adverb	1	CO1	PO1	L2

11	Ashtadayi employs _____ to process grammatical applications. a) Non-recursive logic b) Recursive logic c) Compound logic d) Sutra logic	1	CO1	PO1	L2
12	The process of creating a single noun from several nouns is called _____. a) Sandhi b) Samasa c) Alankaara d) Chandas	1	CO1	PO1	L2
13	Panini's system of applying grammatical conditions to derive words works exactly like a _____. a) Word based engine b) Alphabet based engine c) Rule based engine d) Operation based engine	1	CO1	PO1	L2
14	According to the Arthashastra, which among these are used as units for measuring lengths and distances? a) Dhanus b) Garhapatya Dhanus c) Both a and b d) None of the above	1	CO1	PO1	L2
15	Which of the following Manuscript gave evidence of the earliest recorded use of zero? a) Bhakshali manuscript b) Manu smruthi c) Arthashastra d) Chandashastra	1	CO1	PO1	L2
16	Who developed a symbol for Zero in 628 CE? a) Kautilya b) Madhvacharya c) Brahmagupta d) Pingala	1	CO1	PO1	L2
17	In the Decimal System of Numbers by Lilavati, 10^3 is termed as _____. a) Laksa b) Sahasra c) Ayuta d) Dasa	1	CO1	PO1	L2
18	In the Decimal System of Numbers by Lilavati, trillion is termed as _____. a) Abja b) Prayuta c) Antya d) Mahapadma	1	CO1	PO1	L2

19	Which of the following is not denoted with number 2 in Katapayadi system _____. a) Kha b) Tha c) Pha d) Ya	1	CO1	PO1	L2
20	According to Katapayadi System, “bha-va-ti” is denoted as _____. a) 446 b) 644 c) 464 d) 444	1	CO1	PO1	L2
21	The fundamental measure of physical entities is termed as _____. a) Paramaanu b) Yojana c) Dhanus d) Angula	1	CO1	PO1	L2
22	Which of the following is not a measure of time in ancient India? a) Muhurta b) Renu c) Nimesa d) Ksana	1	CO1	PO1	L2
23	In Pingala System, ‘Ya’ Gana is defined in Binary Word as _____. a) 100 b) 000 c) 001 d) 010	1	CO1	PO1	L2
24	According to Pingala System, the binary word ‘111’ belongs to which among the eight ganas? a) ‘Ma’ Gana b) ‘Ja’ Gana c) ‘Bha’ Gana d) ‘Na’ Gana	1	CO1	PO1	L2
25	Ancient Indians used time in the studies pertaining to _____. a) Astrology b) Astronomy c) Origin of Universe d) All of the above	1	CO1	PO1	L2
26	Chandah Sastra includes concepts of _____. a) Binary Number System b) Combinatorial Mathematics c) Shunya (Zero) d) All of the above	1	CO1	PO1	L2

27	In Ayurveda, which of the following generic measure is employed formulate the ingredients and prepare medicine? a) Time b) Weight c) Distance d) None of the above	1	CO1	PO1	L2
28	Guru (long syllable) is not used in Pingala system when: a) Any syllable with a long vowel b) Any syllable with a short vowel c) Any short syllable followed by conjunction of consonants d) Any short syllable followed by 'm' known as anuswara or visarga denoted by ':'	1	CO1	PO1	L2
29	The concepts of Ashtadayi can be employed in which of the following areas: a) Artificial Intelligence b) Natural Language Processing c) Phonetics d) All of the above	1	CO1	PO1	L2
30	Pingala's binary system will generate a binary word of length ____. a) 4 b) 8 c) 16 d) 32	1	CO1	PO1	L2
