

Module 4

1. Which of the following excavations have revealed the functional town planning aspects , dwelling houses built of different sizes of burnt bricks of ancient India.
 - a. Bengaluru in Karnataka
 - b. Chennai in Tamil Nadu
 - c. Lothal in Gujarat**
 - d. Hampi of Karnataka
2. Hindustan Zinc limited collaborated with British museum research laboratory and the department of Archealogy to discover
 - a. Zinc distillation outfit**
 - b. Zinc purification
 - c. Zinc extraction
 - d. Zinc extraction and purification
3. In modern times, skills of craftsmen in drilling fine holes and casting the statue using the wax process is known as
 - a. Cire-perdue process**
 - b. Core-perdue process
 - c. Holes-wax process
 - d. Wax-holes process
4. Indians were the first to introduce the following metal to human civilization
 - a. Iron
 - b. Gold
 - c. Zinc**
 - d. Silver
5. The process for the extraction of gold in ancient times has been analyzed and documented by
 - a. Hindustan Gold mines
 - b. Bharat Gold Mines**
 - c. Hindustan metal mines
 - d. Bharat Metal mines
6. Identify the process that uses mercury to extract gold from ore
 - a. Amalgamation**
 - b. Distillation
 - c. Purification
 - d. Combination
7. One of the main purpose of extraction of gold was to make
 - a. Suvarna Bindu
 - b. Suvarna Bhasma**
 - c. Suvarna khalasa
 - d. Suvarna ayudha
8. Which of the following distillation process was used for zinc production in ancient india
 - a. Downward Drift reduction**
 - b. Upward Drift reduction
 - c. Horizontal drift reduction
 - d. Vertical drift reduction
9. Which of the following apparatus was used for preparation of ayurvedic formulations
 - a. Damru Yantra**
 - b. Rasa Yantra
 - c. Ayur yantra
 - d. Gynana Yantra
10. Rasa-Ratna-Samuccaya explain the extraction of

- a. Mercury only
 - b. Zinc only
 - c. Gold only
 - d. Metals**
11. Which of the following describes the techniques applied for minting silver coins of a definite weight
- a. Arthashastra**
 - b. Susruta Samhita
 - c. Sodhana
 - d. Bhavana
12. Which of the following has mentioned the fabrication of more than 100 surgical tools made of iron carbon alloys
- a. Rasa
 - b. Susruta Samhita**
 - c. Arthashastra
 - d. Gynana Yantra
13. The process of extracting iron from Biotite and other iron bearing minerals for preparation of medicine is called as
- a. Satvapatana**
 - b. Sodhana
 - c. Bhavana
 - d. Damana
14. What does the Sodhana step in satvapatana process indicate
- a. Purification**
 - b. Extraction
 - c. Heating
 - d. Smelting
15. What does the Bhavana step in satvapatana process indicate
- a. Maceration and Trituration**
 - b. Purification
 - c. Extraction
 - d. Heating
16. What does the Damana step in satvapatana process indicate
- a. Heating and Smelting**
 - b. Purification
 - c. Extraction
 - d. Maceration and Trituration
17. The process of Carburisation and hardening of iron swords is discussed in
- a. Brhat-Samhitha**
 - b. Rasa
 - c. Susruta Samhita
 - d. Arthashastra
18. Which of the following is the fourth oldest dam in world and first in India
- a. Kallanai Dam**
 - b. KRS Dam
 - c. Tungabhadra Dam
 - d. Almatti Dam
19. Methods of beautifying the body using dyes are mentioned in
- a. Natya Sastra**

- b. Artha Shastra
 - c. Yukti-Kalpataru
 - d. Susruta
20. Who is considered as the father of Indian Surgery
- a. **Susruta**
 - b. Aryabhatta
 - c. Palani
 - d. Vedavyasa
21. Surgery made to change the shape of nose is called as
- a. **Rhinoplasty**
 - b. Otoplasty
 - c. Aesthetics
 - d. Oncology
22. Surgery to repair the ear lobe is called as
- a. **Otoplasty**
 - b. Rhinoplasty
 - c. Aesthetics
 - d. Oncology
23. Yukti-Kalpataru deals with the aspects of
- a. **Ship Building**
 - b. Air craft Building
 - c. Residential building
 - d. Hospital Building
24. According to Vishnu Dharmottara purana, the most common colours are
- a. **White, red, yellow, black, blue**
 - b. Pink, orange yellow, blue
 - c. Red, blue, green
 - d. Black and White
25. Karmastakam represents the process of preparing
- a. **Perfumes**
 - b. Vehicles
 - c. Ships
 - d. Weapons
26. Which of the following explains the aspects of transmutation of base metals into gold and silver
- a. **Rasaratnakara**
 - b. Sodhana
 - c. Bhavana
 - d. Damana
27. Manasollasa, the process of making metal icons is written by
- a. **Somesvara**
 - b. Someswara II
 - c. Sushruta
 - d. Vedavyasa
28. Susruta Samhita explains which of the following aspects
- a. **Fabrication of surgical tools made of iron and carbon tools**
 - b. Fabrication of weapons made of iron and carbon tools.
 - c. Fabrication of buildings
 - d. Fabrication of Vehicles
29. The aspects of ship building is explained in which of the following
- a. **Rasa-Ratna-Samuccaya**

- b. Rasaratnakara
 - c. **Yukti-Kalpataru**
 - d. Natya Sastra
30. The process of preparing perfumes is explained in
- a. **Karmastakam**
 - b. Rasa-Ratna-Samuccaya
 - c. Rasaratnakara
 - d. Yukti-Kalpataru

Sl No	Questions	CO, PO, BL	Marks
1	Suggest the ancient surgical methods to improve aesthetics, explain the same	CO2, PO3, L3	5
2	Which ancient script has described the process of extracting iron from Biotite and other iron bearing minerals for preparation of medicine, explain the same	CO2, PO3, L3	5
3	Ancient India was well versed in extraction of zinc from metal ore. Justify the statement with explanation of zinc extraction.	CO2, PO3, L3	5
4	How can ancient irrigation systems in South India, such as the step-wells and the tank irrigation systems, be adapted to modern water conservation techniques to address current agricultural water scarcity issues?	CO2, PO3, L3	5
5	What modern applications can be drawn from ancient Indian painting techniques to preserve and restore artwork and heritage structures?	CO2, PO3, L3	5
